

National Lobster Day: Can you say Homarus Americanus!

To tell you the truth I shell-a-brate all year round!

June 15th AND September 25th have been pegged as 'National Lobster Day'...

Lobster has to be ranked one of the most sustainable seafoods we have. Why? You can find out that and a whole lot more in my Lobster 101 events.

To host your own, private Lobster 101 event or to attend my next Lobster 101 shell-abration, email me and I'll fill you in on all the details on making a shell-fish Lobster 101 party for 4 or 400!
