

National Lobster Day: Can you say Homarus Americanus!

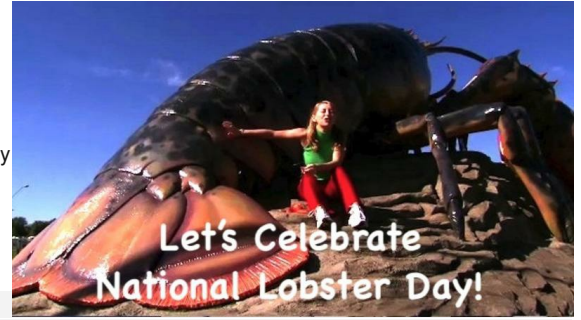

To tell you the truth I shell-a-brate all year round!

June 15th AND September 25th have been pegged as ' *National Lobster Day*'...

Lobster has to be ranked one of the most sustainable seafoods we have. Why? You can find out that and a whole lot more in my Lobster 101 events.

To host your own, private Lobster 101 event or to attend my next Lobster 101 shell-a-bration, email me and I'll fill you in on all the details on making a shell-fish Lobster 101 party for 4 or 400!
